FOREWORD

The Lee's Summit R-7 School District, in its desire to further its services to schools, has resolved that there is a need for a coach/sponsor athletic/activities handbook. It has been compiled to assist high school administrators, coaches, and sponsors who initiate, plan, and administer the various student activities included in the school program.

This handbook includes school district policies, MSHSAA eligibility rules and regulations, as well as, general guidelines and recommendations.

The contributions that student activities make to the educational program of a school will be determined by the attention given by administrators, sponsors, and students to the planning, administration, and supervision of the activity program. It is the hope of the Lee's Summit R-7 School District that this handbook will provide some guidelines for enhancing the educational values each schools' athletic/activity program will have for students.

LEE'S SUMMIT R-7 BOARD OF EDUCATION POLICY:

“EQUAL EDUCATIONAL OPPORTUNITIES”

The Lee's Summit R-7 Board of Education believes that each individual student should be provided the opportunity to develop and achieve to his/her maximum potential. Therefore, the Lee's Summit R-7 School District shall foster an educational environment that provides equal educational opportunity for all students.

LEE'S SUMMIT R-7 ATHLETICS STATEMENT OF PHILOSOPHY

The Board reaffirms in its basic policy statement that every child—regardless of race, creed, color, sex, cultural or socio-economic status, or handicapping conditions—should be given equitable opportunity for educational development. The Board also believes that each school within the District must strive to create and perpetuate a learning atmosphere that capitalizes on student diversity and differences.

The Board recognizes the importance of providing each student a school environment conducive to intellectual, emotional and social growth through participation in the full range of educational programs and activities. Board policy insures equal educational opportunities in the following: course offerings, guidance and counseling, test procedures, extra-curricular programs and activities, co-curricular programs and activities, implementation of student management and discipline procedures, and support services.

In the performance of its duties, the Board guarantees the constitutional rights of each student who comes within its jurisdiction. The goal of equal educational opportunity will be implemented in each of the Board's policy determinations and actions. Board policies and actions of the administration will be directed toward extending and cultivating equal educational opportunities for each student. Affirmative efforts will be exerted to achieve a quality, integrated school system as evidenced by racially balanced administrative and instructional staff in accordance with existing Federal and State laws, guidelines, court mandates, and the Settlement Agreement.

THE NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

The National Federation consists of the fifty individual state high school athletic and/or activities associations and the association of the District of Columbia. These associations have united to secure the benefits of cooperative action which eliminate unnecessary duplication of effort and which increase efficiency through the pooling and coordinating of ideas of all who are engaged in the administration of high school athletic and activities program. Together, the state associations and the National Federation strive to develop standards, policies and rules essential to assist member schools in the implementation of programs consistent with the accepted purposes of secondary education. The National Federation helps preserve the educational nature of interscholastic athletics and the place of these programs in the curricula of schools.

THE MISSOURI STATE HIGH SCHOOL ACTIVITIES ASSOCIATION (MSHSAA)

The Missouri State High School Athletic Association was initiated by a group of representatives from Missouri high schools in 1925 and began to function in 1926. In 1948 the Constitution and By-Laws were amended to include music and debate activities and the name changed to the Missouri State High School Activities Association (MSHSAA).

School membership in an organization such as MSHSAA is in itself insufficient and incomplete as a means of helping boys and girls to achieve the most worthwhile objectives of activities. It is the specific responsibility of each school, through its administrators and coaches, to help students to understand what these objectives are and to provide for these students the appropriate learning experiences that will help them to achieve them.

MSHSAA is a voluntary, nonprofit, educational association of junior and senior high schools established for the purpose of working cooperatively in adopting standards for supervising and regulating those interscholastic activities and contests that may be delegated by the member schools to the jurisdiction of the Association. Payment of membership dues is approved by the By-Laws, and, thereby, become the minimum regulations for each member school. A Board of Directors, consisting of eight members with one from each of the Association's eight districts, is elected to serve as its administrative body. The Board is empowered to employ an executive secretary as its chief administrative officer. To assure that its program is carried out in accord with the philosophy of secondary school activities, rules and regulations governing these activities are included in the MSHSAA Constitution and By-Laws. All of these are in accord with the points of view to which the Association is committed and represent the collective thinking of all the member schools. They are adopted only by vote of the member schools. Neither the Board of Directors nor the Executive Secretary has the authority to make any of the rules or to waive them.

TITLE IX

In accordance with the provisions of Title IX, all students in the Lee's Summit R-7 School District may enroll or participate in any educational program or activity offered by the district, including extra-curricular activities, without regard to sex, unless otherwise designated by Title IX, i.e., contact sports.

LEE'S SUMMIT R-7 STUDENT ACTIVITIES STATEMENT OF PHILOSOPHY

The Lee's Summit R-7 School District believes that a dynamic program of student activities is vital to the educational development of the student. Interscholastic activities shall supplement the secondary curricular program and shall provide most worthwhile experiences to students that shall result in those learning outcomes that will contribute toward the development of the attributes of good citizenship. Emphasis shall be upon teaching "through" athletics and activities. These experiences shall serve as a laboratory where students may cope with problems and handle situations similar to those encountered under conditions prevailing in the contemporary world.

The interscholastic activities program shall be conducted in accordance with existing Board of Education policies and rules and regulations, and with the general objectives of each school. **IMPORTANT:** An interscholastic activity shall be defined as any extra-class activity involving two or more schools in which two or more students participate who are identified with their schools.

I. ELIGIBILITY STANDARDS FOR ALL INTERSCHOLASTIC ACTIVITIES

Any student who represents his or her school in interscholastic activities in ATHLETICS, MUSIC, JOURNALISM, SPEECH/DEBATE/DRAMA, ACADEMICS, CHEERLEADING, and DANCE SQUADS shall meet the following MSHSAA and Lee's Summit R-7 general standards of eligibility:

A. CITIZENSHIP STANDARDS.

Students who represent a school in interscholastic activities must be credible citizens and judged so by the proper school authority certifying a list of students for competition. Those students whose character or conduct is such as to reflect discredit upon themselves or their schools are not considered "credible citizens." Conduct shall be satisfactory in accord with the standards of good discipline.

A student shall not be considered eligible while under suspension. The student who is expelled or who withdraws from school because of disciplinary measures shall not be considered eligible for 365 days from the date of expulsion or withdrawal. If a student misses class on the date of a contest without being excused by the principal, he or she shall not be considered eligible on that date.

Each individual school has the authority to set more restrictive citizenship standards and shall have the authority to judge its students under those standards.

B. ACADEMIC STANDARDS

Participation in high school activities is a valuable educational experience and should not be looked upon as a reward for academic success. Students with low academic ability need the educational development provided through participation in activities as much as students with average or above average ability. Activity participation should be for all students making appropriate progress toward graduation and otherwise in good standing.

1. A student in Grades 9-12 must be currently enrolled in and regularly attending courses that offer a minimum of 2.50 units of credit or earn credit in 70% of the maximum allowable classes in which a student can be enrolled, and must have earned these minimum units of credit the preceding semester of attendance; or a student must be enrolled in a full course at his or her level in a special education program for the handicapped approved by the Missouri State Department of Education which, though ungraded, enrolls pupils of equivalent age, and that student must have made standard progress for his or her level the preceding the ninth grade for first semester eligibility.

A student who is dually enrolled in college and high school classes—but who does not receive high school credit on his or her high school transcript for the college work—may have college hours earned during a regular semester count up to a maximum of 1 unit of credit toward determining high school eligibility as follows: 1/2 unit of high school credit for a 2 or 3 credit hour class; 1 unit of high school credit for a 4 or 5 hour college credit class.

2. A student who was academically ineligible the preceding semester but meets the academic standard at the close of that semester becomes eligible the first day classes are attended in the succeeding semester.
3. Credit earned or completed after the close of the semester shall not count as having been earned that semester, except in case of illness verified by a physician. Credit earned in summer school shall count for the student's record for eligibility purposes for first semester participation only.

C. AGE STANDARDS

1. A student shall not have reached the age of 19 prior to July 1 preceding the opening of school. If a student reaches the age of 19 on or following July 1, the student may be considered eligible for the ensuing school year.
2. To be eligible for middle school competition against teams all in a particular grade classification, the student shall not have reached the following ages prior to July 1 preceding the opening of school: Grade seven — 14, Grade Eight — 15.

D. SEMESTERS OF PARTICIPATION

A student shall not participate for more than four seasons in grades 9-12 in any interscholastic activity. A student shall have only eight consecutive semesters (four consecutive years) of eligibility in high school, in which he/she may participate in one season per year in an activity, and these eight consecutive semesters shall begin on the twentieth (20th) day of the first semester a student enters the 9th grade, or the first interscholastic contest in which the student participates, whichever occurs first. A student who participates in any part of an interscholastic event or contest shall count such as a season of participation.

E. ENTERING AND WITHDRAWING FROM SCHOOL

“Entering school” for the purpose of eligibility consists of regular registration for classes and attendance in classes. A student must have ENTERED SCHOOL WITHIN THE FIRST ELEVEN DAYS of the semester in which he is competing. A student moving from a school district which has a normal school year beginning in September to a district which has divided terms becomes eligible upon the change of residence and enrollment in a school in that district, provided he meets all other requirements. In case of withdrawal, if withdrawal occurs on or after the twentieth school day of the preceding semester, a student is ineligible for one complete semester; if withdrawal occurs before the first twenty days of the semester have elapsed, that student will not be considered as having been in attendance that semester provided that he or she has not participated in interschool activities during this period.

F. ASSUMED NAME

A student shall not have participated under an assumed name.

G. LEE’S SUMMIT R-7 BOARD OF EDUCATION POLICY CONCERNING STUDENT ALCOHOL/DRUG ABUSE (JFCH)

The Lee’s Summit R-7 School District is concerned with the health, welfare and safety of its students. Therefore, use, sale, transfer, distribution, possession or being under the influence of unauthorized prescription drugs, alcohol, narcotic substances, unauthorized inhalants, controlled substances, illegal drugs, counterfeit substances and imitation controlled substances is prohibited on any district property, in any district-owned vehicle or in any other district-approved vehicle used to transport students to and from school or school activities. This prohibition also applies to any district-sponsored or district-approved activity, event or function, such as a field trip or athletic event, where students are under the supervision of the school district. The use, sale, transfer or possession of drug-related paraphernalia is also prohibited.

For the purpose of this policy a controlled substance shall include any controlled substance, counterfeit substance or imitation controlled substance as defined in the Narcotic Drug Act, Section 195.010, RSMo., and in schedules I, II, III, IV and V in section 202(c) of the Controlled Substances Act, 21 U.S.C. 812(c).

Students may only be in possession of medication as detailed in Board policy JHCD. Searches of persons reasonably suspected to be in violation of this policy will be conducted in accordance with Board policy.

Any student who is found by the administration to be in violation of this policy shall be referred for prosecution and subject to disciplinary action up to and including suspension, expulsion or other discipline in accordance with the district's discipline policy. Strict compliance is mandatory. The school principal shall immediately report all incidents involving a controlled substance to the appropriate local law enforcement agency and the superintendent. All controlled substances shall be turned over to local law enforcement.

Students with disabilities who violate this policy will be disciplined in accordance with policy JGE.

H. LEE'S SUMMIT R-7 BOARD OF EDUCATION POLICY CONCERNING STUDENT DISCIPLINE

It is essential that the district maintain a classroom environment that allows teachers to communicate effectively with all students in the class and allows all students in the class to learn. To assist district staff in maintaining the necessary classroom environment, the Board of Education has created a discipline code that addresses the consequences, including suspension or expulsion, for students whose conduct is prejudicial to good order and discipline in the school or impairs the morale or good conduct of other students. The Board authorizes the immediate removal of a student upon a finding by a principal or superintendent that the student poses a threat of harm to self or others, as evidenced by the prior conduct of such student. Any such removal will be subject to the appropriate due process procedures and in accordance with the law.

These policies, regulations and procedures will apply to all students in attendance in district instructional and support programs as well as at school sponsored activities. All district staff are required to enforce these policies, regulations, and procedures in a manner that is fair and developmentally appropriate and that considers the student and the individual circumstances involved.

Off-campus misconduct that adversely affects the educational climate will also be subject to these policies, regulations, and procedures. Students, who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony, may be suspended in accordance with the law.

Building principals are responsible for the development of additional regulations and procedures regarding student conduct needed to maintain proper behavior in schools under their supervision. Teachers have the authority and responsibility to make and enforce necessary rules for internal governance in the classroom, subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom.

All employees of the district shall annually receive instruction related to the specific contents of the district's discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties including, but not limited to,

approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity and requirements for confidentiality.

I EXPECTATIONS FOR PARTICIPANTS IN ACTIVITIES AND ATHLETICS

Participants are expected to abide by all established policies, rules, and regulations for student behavior described in the Lee's Summit R-7 Athletic/Activities Handbook. In addition, students are expected to abide by all policies, rules, and regulations detailed in any handbook that is unique to the activity in which they will participate. All activities do not have the same policies, rules, and regulations. Therefore, it is important that students become familiar with the policies, rules, and regulations for each activity in which they will participate.

J. ACTIVITY AND ATHLETIC CODE OF CONDUCT

The Board of Education considers student participation in activities and athletics a privilege and not a right. To be eligible for designated activities and athletics, secondary students must sign the Lee's Summit R-7 Activity/Athletic Commitment form and must abide by the Lee's Summit R-7 Activity/Athletic Code of Conduct which is founded on the assumption that students whose behavior violates the law may lose activity or athletic eligibility.

The superintendent is authorized and directed to take actions necessary to implement this policy, including the creation of the pledge and code of conduct for Board of Education approval and distribution to secondary students and families. To assist district staff in maintaining the necessary classroom environment, the Board of Education has created a discipline code that addresses the consequences, including suspension or expulsion, for students whose conduct is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of other students.

The Board authorizes the immediate removal of a student upon a finding by a principal or superintendent that the student poses a threat of harm to self or others, as evidenced by the prior conduct of such student. Any such removal will be subject to the appropriate due process procedures and in accordance with law.

K. CODE OF CONDUCT FOR PARTICIPATION IN LEE'S SUMMIT R-7 ACTIVITIES AND ATHLETICS

Rationale: Secondary students who participate in athletics and co-curricular activities are thought of as school leaders. They represent the school in the eyes of the community. They serve as role models for other students. As such, these students should be held to a high standard of behavior. Such students need to maintain their physical and mental well-being, not only while at school and school-sponsored activities, but at other times as well. In an effort to achieve these goals, Lee's Summit R-7 has developed a prevention program that includes an Athletic and Activity Student Commitment. To participate in school-sponsored athletics and designated school-sponsored activities, an Athletic and Activity Commitment Form must be signed by students and their parents. Parents are requested to indicate support of the Code by signing the commitment along with their student.

II. ADMINISTRATIVE GUIDELINES FOR INTERSCHOLASTIC ACTIVITIES PHILOSOPHY ON CHEMICAL ABUSE FOR STUDENTS IN ACTIVITIES OR ATHLETICS

A. R-7 School District recognizes the use and/or possession of tobacco and mood-altering chemicals as a significant health problem for many adolescents, resulting in negative effects on behavior, learning, and the total development of each individual. The possession or use of tobacco and of mood-altering chemicals, such as alcohol, drugs, marijuana, etc., by adolescents affects extra-curricular participation and the development of related skills.

B. STATEMENT OF PURPOSE

1. To recognize and elevate the physical and emotional potential of students in a positive manner, and encourage the growth of these students in an atmosphere of responsible citizenship.
2. To emphasize the school's concern for maintaining and improving the health and safety of students while participating in activities.
3. To promote her/his awareness of the long-term physical and emotional effects of chemical use on their health.
4. To promote equity and a sense of order and discipline among students.
5. To confirm and support existing state laws which restrict the use of chemicals.
6. To establish and promote high standards of conduct for those students who are leaders and standard-bearers among their peers.
7. To assist students who desire to resist peer pressure which directs them toward the use of chemicals.
8. To provide prevention guidelines for chemical abuse in the activity programs for students and staff advisors of R-7 School District.
9. To emphasize the expectation of the R-7 School District that credible citizenship is to be a yearlong commitment and that non-credible citizenship could result in disciplinary action or removal from participation.

C. OBJECTIVES

To establish a prevention program that includes penalty guidelines, as well as, includes assurance that fair treatment is received for the action. The three major components of fair treatment are:

1. Certainty--enforcement of consequences will follow the violation;
2. Severity--fair penalty will result for the act;
3. Celerity--the process will be prompt and immediate.

D. CONSEQUENCES OF CHEMICAL ABUSE

Credible citizenship is a year-round responsibility. The following rule includes the school year, summer, or season of practice, play, or rehearsal:

Regardless of quantity, a student shall not use or possess tobacco; have in possession or use a beverage containing alcohol; use or consume, have in possession, buy, sell, or give away marijuana or any substance defined by law as a drug specifically prescribed for the student's own use by his/her doctor; or use or be in possession of drug paraphernalia. The use of prescribed or non-prescribed performance-enhancing products is greatly discouraged by the Lee's Summit R-7 School District.

The use of each type of chemical can adversely affect the student on a short- or long-term basis. Chemical substances are defined as tobacco/alcohol/mood-altering chemicals-and drug paraphernalia.

The following are minimum guidelines that shall be applied for the violation of the chemical abuse rules. Each coach/sponsor shall have the option of assigning additional penalties for any violation.

1. **First Violation Penalty:** Following confirmation of the violation, the student would lose eligibility to participate in the next match/contest(s) that occur in a consecutive, chronological sequence. The student/athlete shall be ineligible for interscholastic competition and may not participate for a minimum of 40% of his/her competitive season. The match/contest cannot be selected. The student must meet all other team obligations as defined by the coach/advisor of that activity. Also, the student must undergo ten hours of tobacco/drug/alcohol counseling or rehabilitation before he/she can participate in athletic/activities.
2. **Second Violation Penalty:** The student shall be ineligible for 365 days, beginning with the date of the violation.
3. **Violations occurring at the end of season, off-season, or during the summer**
The loss of eligibility carries over to the next season in which the student/athlete participates. Example: If a student commits a violation during the last contest of the season, he/she loses eligibility (as per the consequence of the category involved) in the next season of participation. The 40% formula will be reworked per the next season of participation. Counseling and/or rehabilitation services must begin during the season of the violation.

E. TOBACCO-FREE DISTRICT

To promote the health and safety of all students and staff and to promote the cleanliness of school grounds, the district prohibits all employees, students, and patrons from smoking or using tobacco or tobacco products in all school facilities, buildings, school transportation, other district transportation, and on all school grounds at all times, including athletic events and meetings. This prohibition extends to all facilities the district owns, contracts for or leases to provide educational services, routine health care, daycare, or early childhood development services to children. This prohibition does not apply to any private residence or any portion of a facility that is used for inpatient hospital treatment of individuals dependent on, or addicted to, drugs or alcohol in which the district provides services.

F. MSHSAA POLICY STATEMENT REGARDING TOBACCO PRODUCTS AND ALCOHOLIC BEVERAGES.

It is important that all adults involved in the interscholastic activities program set the proper example for participants with regards to the use of tobacco products and alcoholic beverages. Therefore, the Board of Education has adopted the policy statement of MSHSAA to apply to all interscholastic events:

Coaches, directors, sponsors, and contest officials are prohibited from using tobacco products or alcoholic beverages while directly involved in interscholastic activities. Involvement is defined in this policy as being in public view and when student are actually participating under the jurisdiction of the coach, director, and official. Proper enforcement is expected. Violations shall be reported to the school's administration and MSHSAA.

G SUPERVISION OF STUDENTS

No individual student, team, or activities group shall be permitted to participate in scholastic events without being accompanied and supervised by a representative of the school faculty or administrative staff.

H. LEE'S SUMMIT R-7 BOARD OF EDUCATION POLICY (IGDF) -STUDENT FUNDRAISING

Definition:

District-Sponsored Fundraising – Any activity that has the purpose of raising funds in support of a student activity or program and that is administered and conducted by school staff or students involved in the activity or program.

District-Sponsored Fundraisers

The Board prefers that the school district financially support district-sponsored student programs and activities. However, in some cases it may be necessary to raise funds to help support these district endeavors, and the district may involve students in these fundraising activities.

The superintendent and principals will be directly responsible for all district-sponsored fundraising activities conducted in the district or sponsored in any manner by the district. All district-sponsored fundraising activities must first be approved by the building principal and/or the superintendent or designee and must comply with the requirements set out in district policies and procedures. All funds collected in a district-sponsored fundraiser will be deposited in district accounts except when approved by the superintendent or designee.

Student-Initiated Group Fundraisers

Student-initiated groups are not district-sponsored, but these groups have the same access to district facilities, communications channels and fundraising opportunities as other district-sponsored non-curricular groups. These groups may conduct fundraising activities, but must follow the same rules applicable to other district-sponsored non-curricular groups.

Fundraising by Other Groups

For liability and fund management purposes, it is essential that district staff not confuse district-sponsored fundraising with fundraising conducted by booster clubs or other groups not directly controlled by the district. Although the district welcomes community involvement in and support of district programs, the district cannot take responsibility for fundraising or the funds collected by such groups. To avoid confusing parents, students, and community members participating in the fundraising efforts, only district-sponsored fundraising subject to district rules may occur during the school day or class time except when approved by the superintendent or designee.

A group may only use the name, logo or mascot of the district or of a district school in reference to a fundraiser if the fundraiser has been approved by the superintendent or designee or the School Board and the funds raised go to the district as represented in advertising.

I. LEE'S SUMMIT R-7 BOARD OF EDUCATION POLICIES ON SCHOOL-SPONSORED STUDENT TRAVEL

1. STUDENT CONDUCT ON SCHOOL TRANSPORTATION (JFCC)

Students, parents/guardians, bus drivers and school officials must work together to provide for the safe transportation of students. The school buses, bus stops, and all other forms of transportation provided by the district or provided incidental in a school activity are considered school property. Students are subject to district authority and discipline while waiting for, entering, and riding district transportation. The superintendent or designee will create and enforce administrative procedures detailing the conduct expected of students and will make that information available to students and parents.
